Anty Drudge Tells How to be Rid of the Smell.

Miss Chirp-"Say, Anty, do you notice that odor ? I've just had this waist washed and the laundry soap has made it smell horrid!"

Anty Drudge-"Yes, dear! No one without a cold could fail to notice it. But why don't you have your clothes washed with Fels-Naptha? It will leave them sweet and fresh without any odor. And they'll be cleaner and wear longer than if washed in the old, washboiler way."

Do your clothes have an odor when they come from the wash?

No-if you wash with Fels-Naptha.

Yes—if you use ordinary laundry soap or washing powders.

If you could see what goes into the ordinary soaps and powders, you would understand why they leave the clothes yellow and ill-smelling.

If you could see the pure materials that form a basis for Fels-Naptha you would know why it makes your clothes white and

sweet, free from all odors. Compare clothes washed with Fels-Naptha in cold or lukewarm water with clothes on which ordinary laundry

soaps and powders have been used. No other soap is anything like Fels-Naptha-in results.
